PP&D Is Your Best Brochure Distribution Choice!

Experience

PP&D Brochure Distribution placed over five million brochures last year, and logged over fifty thousand miles. Since 1981 we've been expanding and maintaining our vast network of brochure displays.

"Since 1985 PP&D has delivered over two million maps. We rely on their great service to reach the valuable tourist market."

*Karen Ballard
Vermont Attraction Association*

We serve hundreds of clients including Ben & Jerry's, Stowe Mountain Resort, Farmway, Vermont Country Store, Morse Farm, Billings Farm, Magic Hat and White Mountain Association.

We are in tune with the tourism industry. We are members of the Vermont, Lake Champlain, Hartford, Addison, Mad River, Jay, Okemo, Newport, Killington Chambers of Commerce, Stowe Area Association, Waterbury Tourism Council and Burlington Business Association. Bill Orleans has also served on the boards of the Vermont Travel Industry Conference, Vermont Hospitality Council and The International Association of Professional Brochure Distributors.

"Billings Farm has used PP&D for almost three decades. They are the most experienced, honest and knowledgeable distributors in the State."

*Susan Plump, Marketing Director
Billings Farm and Museum, Woodstock*

Expertise

As Vermont's largest brochure distributor, we have designed routes throughout Vermont and upstate New York. We work with major attractions and small inns; perform multi-state and local distributions. PP&D can target the customers you want, within your budget.

"Last year PP&D distributed our brochure to ten regions across Vermont... We have complete confidence in their thorough and enthusiastic service."

*Laurie Callahan, Retail Manager
Cabot Creamery, Cabot*

Exposure

We make weekly trips to the busiest locations, and check even the smallest establishments regularly. We've built relationships with hundreds of merchants and lodging establishment owners. They appreciate us keeping the display organized and up to date.

"I believe much of the incredible growth of our tourist attraction directly results from PP&D's brochure distribution."

*Gary Coffey, Retail Manager
Lake Champlain Chocolates, Burlington*

We've installed over seven hundred brochure displays in Vermont, New Hampshire and New York. Our service means your brochure can be seen in more locations, in more visible displays, and visited more often. Our displays have the vital combination of brochures from local shops, restaurants, and state-wide attractions, making them the showcase of each establishment. We know where your brochure will be popular and we'll be there to keep them stocked and fully exposed.

All this assures you the maximum return on your brochure.

PP&D Brochure Distribution

January 2014

Thank you so much for considering PP&D for your brochure distribution. We value all of our customers and work very hard to stock and restock brochures at all the best locations year-round. In 2013 we placed over five million brochures in over a thousand places!

The big news is that in November we purchased the BLUE MAP and nineteen high traffic brochure locations from Burlington's Information Gallery. They include; The Shelburne Museum, the new Hotel Vermont, Shelburne Farms, Burlington Harbor Marriott, Shelburne Vineyards and five Lake Champlain Ferry Docks.

The BLUE MAP is celebrating its 30th anniversary. Look for some great new changes. Consider a listing in this fantastic map with twice as many distribution points as any other area map.

Last year we also placed dozens of new brochure displays, including Harpoon Brewery, The Jeffersonville Info Booth, Chaffee Art Center, Vermont's North Country Chamber, Burke Mountain Resort, Valley View Restaurant, Noonies Deli, The Berlin Mall and Adirondack Car Rental.

In the field of higher education we placed new displays at Lyndon State College and Saint Michael's College's new Dion Student Center, The Tarrant Recreation Center and McCarthy Arts Center.

Have you seen our PP&D e-newsletter? Our last issue was all about the BLUE MAP and our new locations. Please let me know if you are not on our list. You can also access them through our website **PPDBrochure.com**

After reviewing this booklet I'm confident you'll discover PP&D offers the highest quality brochure distribution and best map available. Please give me a call or drop me an email with any questions.

Sincerely,

Bill Orleans

A Few Tips For Effective Brochures

For more tips visit PPDBrochure.com

Big Bold Heading on Top: There is no such thing as subtlety in brochure design. The larger the type the better. All important information needs to be in the top 2½". Sometimes that's all you see. Also place that info on the top of the back, in case your brochure gets returned to the display backwards by a visitor.

Size: All pieces should be folded to become 4"x9" for proper rack display.

Paper: We recommend no less than 70 lb. coated stock for a three-fold, full color brochure and no less than 100 lb. coated cover stock for a rack card. Grain direction should always run vertically.

Brochure Quantity: Regions of service desired, months of distribution, and placement at Welcome Stations all go into deciding quantity needed. Initial delivery takes a lot of brochures to first stock the racks. There is a huge difference in replacing your old brochures and using the same piece every year.

The Modern World: Be sure to list your full mailing address, with zip code, for the traveler equipped with a GPS system. Be sure to include your area code, as cell phones require them even if you are calling from around the corner. Website and email address may be helpful too.

Design: Keep it simple and clean. Colored photos are great. Be sure to include a good map and directions.

For The Printer: Please band your brochures in paper or rubber bands. Brochures in a bundle should face the same direction. The maximum weight of a box shouldn't exceed 40 pounds and should be marked with your name and quantity.
